

2011-2012 Girl Badge Workshops

Pekin Park District will be offering Try-It & Merit badge workshops for Brownies and Jr. Girl Scouts instructed by Julie Lerczak (Arts and Nature Program Coordinator for Soldwedel Program Center.) Workshops will be held at the main lodge building of the Soldwedel Program Center located at the former Soldwedel Girl Scout Camp, adjacent to McNaughton Park off of Rout 98.

The cost to participate in each workshop is \$5.00 per child. Each child will receive a certificate of participation documenting completion of their badge-work and Scout leaders are responsible for ordering their badges. Scout leaders may register troops or individuals may register on their own, providing their leaders give permission and understand that they are working on badges through park district programs. Winter workshops may be subject to re-scheduling, should weather conditions affect enrollments and present travel hazards. Class enrollments are limited to 30 people.

Choose from the following sessions:
